

## REFLIVE UPDATE - COVID-19

### **To our RefLIVE Community,**

We fully support the decision from governing bodies around the world to postpone sports in the coming months.

Our team lives and breathes sports, it's why we started RefLIVE and it's why we love helping improve the environment at matches and assisting in the growth of sports leagues all over the world. But given this is a global health crisis, we must listen to health experts and focus on prevention and flattening the curve.

We're continuing to operate with our entire team working from home for as long as required and are available as normal if there is anything we can assist with.

We're looking forward to life on the field getting back to normal, and in the meantime we are here and continuing to make our product the best in the industry.

**Regards,**

**Simon Murphy**  
**CEO**
